EDUCATION

Sri Shakthi Institute of Engineering and Technology
B.Tech in Information Technology | CGPA: 8.39 | 2023 – 2027
St. Francis Xavier's Higher Secondary School
SSLC | HSC: 83%

SKILLS

Languages: Java, C, JavaScript, HTML, CSS, SQL, NoSQL

Frameworks & Tools: ReactJS, NodeJS, Express, Spring Boot, GitHub, VS Code

UI/UX & Design: Figma, Adobe XD, Wireframing, Prototyping, Responsive & Mobile-First Design

Databases: MySQL, MongoDB

SoftSkills: Creativity, Problem Solving, Critical Thinking, Team Collaboration, Quick Learner

PROJECTS

Java Console-Based Student Management System

[GitHub](#)

Built a Java-based CRUD application to manage student records using MySQL and JDBC. Included features to add, update, view, and delete student data through a clean console interface. Applied object-oriented design and ensured persistent storage with proper database connectivity.

Nexora – The Alumni Association Platform | Backend Developer

[GitHub](#)

Designed and developed a full-stack alumni platform using Java Spring Boot (backend), MySQL (database). Enabled alumni to connect through event updates, forums, directories, and admin dashboards. Key features: RSVP system, donations, news portal, and email notifications.

UI/UX Projects

Furniro – Furniture Website ([Figma Prototype](#))

Designed a modern, responsive furniture shopping website focused on clean UI and user experience.

EduMap – Student Education Assistant ([Figma Prototype](#))

Built a UI for an educational assistant tool that maps student interest and performance to recommend personalized learning paths.

CERTIFICATIONS

- Introduction to Back-End Development <https://coursera.org/verify/D6VCDEGMPB3Q>
- Digital Wireframe with Figma <https://coursera.org/verify/HXK3AGK7OFYP>

ACHIEVEMENTS

- Finalist – HackIndia Hackathon:** Selected from 50,000+ participants for outstanding innovation and prototype development
 - .Runner-Up – UI/UX Design Competition:** Recognized for delivering a user-centric and visually appealing design solution.
-
